

Layout and Menu Elements

- Here is the code of creating the layout and menu.

Menu layout code HTML.

```
<header class="header">
  <div class="header-logo">
    <a class="site-logo" href="index.html">
      
    </a>
  </div>

  <nav class="header-nav-wrap">
    <ul class="header-main-nav">
      <li class="current">
        <a class="smoothscroll" href="#intro" title="Intro">Intro</a>
      </li>
      <li><a class="smoothscroll" href="#about" title="About">About</a></li>
      <li>
        <a class="smoothscroll" href="#services" title="services">
          Programming Skills</a>
        </li>
      </li>
      <li><a class="smoothscroll" href="#works" title="works">Other</a></li>
      <li>
        <a class="smoothscroll" href="#contact" title="contact us">
          Say Hello</a>
        </li>
      </li>
    </ul>
  </nav>
</header>
```

Menu layout code CSS

```
@media only screen and (min-width: 801px) {
  .header-nav-wrap {
    display: block !important;
  }
}
```

```
.header-nav-wrap {
  margin-right: 36px;
}

.header-nav-wrap .header-social {
  display: none;
}
```

```
.header-nav-wrap {
  display: inline-block;
}

.header-nav-wrap ul {
  display: inline-block;
  list-style: none;
  margin-left: 0;
  margin-top: 18px;
}

.header-nav-wrap li {
  display: inline-block;
  padding-left: 0;
}

.header-nav-wrap li a {
  display: block;
  line-height: calc(78px - (18px * 2));
}
```

Result
