Video and Forms

This is how I linked the video and added a contact form to my project.

```html
<section id="works" class="s-works target-section">
  <div class="row heading-block heading-block--center" data-aos="fade-up">
    <div class="column large-full">
      <h2 class="section-heading section-heading--centerbottom " style="color: ■white;">
        other INFORMATION
      </h2>
      <h2 style="color: ■white;">
        Coursework Highlights
      </h2>
      <p style="color: ■white;">
        List relevant courses and key learnings, such as database management, software engineering, and systems analysis.
      </p>
    </div>
    <div class="column large-full">

      <h2 style="color: ■white;">
        Extracurricular Activities
      </h2>
      <p style="color: ■white;">
        Participation in coding competitions, hackathons, or relevant student organizations.
      </p>
    </div>
  </div>
  <div class="video-wrapper">
    <video playsinline autoplay muted loop poster="cake.jpg">
      <source src="images/video.mp4" type="video/webm">
      Your browser does not support the video tag.
    </video>
  </div>
</section>
```
